What are BioApps™ Frequency Patches?

Bio Apps work through infusion technology. This is a non-transdermal and non-invasive technology. Each of the 40 different Bio Apps have their own combination of bio-frequencies embedded into them. Each set of frequencies are developed to enhance and activate a particular targeted system. Once applied to the body, the Bio Apps emit specific frequencies which communicate with, and enhance your body's natural systems to restore, revive and rejuvenate itself.

Help awaken your body's natural response with NO side effects by ordering from our extensive catalog today!

TheraEx or "Therapeutic Experience" is a complementary restoration patch system. The patch or "BioApps™" are made to rapidly promote and activate the necessary resources to optimize body and brain function, restore missing cell communication, and accelerate the body's natural ability to heal itself faster.

Many health care providers from Medical Doctors, Acupuncturists, Naturopaths, Pharmacists, Chiropractors, Psychologists and Nutritionists are using **TheraEx BioApps™** in conjunction with the techniques and methods they already utilize; whether it's medication, nutrition, physical therapy, massage or any modern method to alleviate health concerns.

The BIO App is a patch that is worn, on the left side of the body, for a period of 3 days and then replaced by a new one. There are currently over 40 different BioApps™ that have been developed to activate, inform and correct the body's natural healing response for a number of conditions that have proven problematic in most people's lives.

BioApps™ are designed to provide a therapeutic experience usually within 24 hours. The BioApps™ are made to give you 72 hours of beneficial energy to trigger the body to naturally work more effectively and with greater ease. Bio Apps are constructed from medical grade, non-irritating tape that is breathable, flexible, and works under the toughest conditions - even through swimming, jogging, sleeping, and showering.
