

The image is a screenshot of the World Development Systems (WDS) website. At the top, the text reads "WORLD DEVELOPMENT SYSTEMS" in large white letters, with "The Technology of Possibilities" underneath. A red banner with yellow text is overlaid on the page, stating: "WHPRS Rating 0, no vadiadation, no verification, no substantiation of any claims, Fraudulent to sell". Below the banner, the website's navigation menu includes "WDS", "Not currently logged in", "MD2 products", "Where To Buy WDS Products", "e-Lybra", and "testimonials". On the right side, there is a contact number "Tel: +44 1684 899 334" and buttons for "Blog" and "View Cart". The main content area features the text "e-Lybra® 9 Energy Balancing System" next to an image of the device, which is a white rectangular unit with two large gold-colored circular ports and several control buttons.

What is e-Lybra 9®...? **Answer complete unverified fraud**

The e-Lybra® System is designed to bring energy balancing to the masses. Its unique technology has been developed to enable practitioners to detect and balance imbalances using a fully interactive software program incorporated into bio-resonance equipment. The e-Lybra® is easy to use and has friendly ergonomically designed computer screens, with layouts that guide the user through the analysis and balancing process.

What does e-Lybra® 9 do...? **it puts you the doctor into jeopardy to lose your license**

The e-Lybra® is designed to analyse imbalances in the bio-field of the client and at the exact same time produces bio-resonance patterns that harmonises the imbalances found. These balancing bio-resonance patterns are sent to the client during a session via comfortable connection cables. The range of imbalances covered includes the complete physiology of the body, psychological, emotional and subtle energy systems. There are 222 categories containing approximately 300,000 bio-resonance patterns which the e-Lybra® will use to make a comprehensive body status profile.

The e-Lybra® then uses this profile to analyse imbalances in detail whilst sending balancing to the client. The items that are found in the analysis are stored on the database for the client each time they have a session. There is no limit to the number of clients nor the number of sessions that can be saved on the system. For new users there is an automatic balancing schedule that requires only one button to be pressed and it provides a complete analysis and balancing session, without the need for any further button pressing on the software or bio-resonance equipment.

In addition, all the corrective bio-resonance patterns that are sent to the client during the session can automatically be programmed into the bio-resonance capsule or drops for the client to take away.

Why we developed the e-Lybra® 9 system...? To make money from fools

Many illnesses and diseases start with emotional, mental or psychological trauma that upsets the various systems of the body eventually causing pathology to change for the worst. The e-Lybra® will detect and provide bio-resonance patterns to help release the trauma permanently and balance the associated energy around the damaged pathology.

What does it do, in more detail... NOTHING it is fraud

The advanced Practitioner may use the auto run schedule and also can take advantage of the incredible functionality of the e-Lybra®. The Practitioner may search the database of bio-resonance patterns (300,000) and select sections or individual items and put them into a formula. There is no limit to the number of formulae or size of formula that can be stored in the system.

Each formula is given a name and may be grouped with others. Each formula can be added into the client profile automatically so that generic or bespoke formulae can be used in the analysis and balancing process. Within the 222 Categories there are several hundred formulae that can be extracted and used by the Practitioner taking only a few seconds to create one's own formula for specific imbalances eg. Synovial fluids in the knee, bones in the wrist, all of the organs and complete systems of the body.

Many Practitioners design very successful formulae which they then use for balancing for individual conditions and therapies. Other functionality in the e-Lybra® allows the Practitioner to scan any individual anatomical part of the body for imbalances and provide a complementary balancing pattern. Included as standard are a comprehensive list of allergies and intolerances.

Warranty / Support and Training...

The reliability of the e-Lybra® allows WDS to offer a 3 year guarantee on hardware (base unit) and also 3 years free software updates and support. 2 days Basic Training is included in the package and this will be carried out by a WDS Certified e-Lybra® Trainer. We also include a free voucher to attend an additional 2 days training at any of our Refresher Trainings courses which are held at various locations throughout UK and Europe. Standard Training Worksheets are used by the WDS certified e-Lybra® trainers and these completed Worksheets are returned to WDS who then issue an appropriate Training Certificate direct to the Trainee.

We have over 25 years of feedback from clients who have purchased our systems, and the following is our recommendation that will help you receive the most effective basic training.

WDS highly recommends that you take delivery of your new e-Lybra system 5-7 days before you start your 2 days of basic training. We have found that clients that use this time to familiarise themselves with the e-Lybra system using the supplied "Getting Started" manual and the training DVD, will gain a more effective and quicker understanding of the system during the 2 days of basic training.

The e-Lybra® price is fixed across the different countries with fluctuations due to local taxes and import duty and level of support and training packages by individual resellers. The software developed by WDS is always upwardly compatible therefore no e-Lybra® system becomes obsolete.

Further Training and Refresher Courses are regularly run in several different countries where Practitioner's get a chance to spend time with the WDS Team and like minded Practitioners - an opportunity not to be missed. The WDS website also shows news and events

as well as regular improvements - www.wds-global.com. In addition to e-Lybra® there are many other balancing products created by WDS that can be purchased and resold to clients.

Periodically, WDS will send worldwide to each Practitioner an update of the e-Lybra® software on a CD which can easily be installed onto the PC - installation notes accompany each CD. Any errors that occur in the e-Lybra® software can be printed and faxed or emailed to WDS. Bug fixes can be downloaded from the WDS main web site from the e-Lybra user area.

Additional Possibilities...

The e-Lybra® can be used in conjunction with allopathic medicine as well as any other therapy. It is widely used to help speed up the healing process after injury or surgery. Because of the holistic viewpoint that the e-Lybra® works from, it is normal for the system to find imbalances that are present in the bio-field but not yet pathological. This is a great help as a preventative measure to help kick start the body's healing systems ahead of time.

The e-Lybra® formulae can be used to create effective creams and ointments for all sorts of conditions, eczema, acne, face lift (favourite amongst women), for athletics, injuries and so on.

The e-Lybra® can be networked so that several e-Lybra®s can send data to a main server. This is ideal in a clinic situation where the data from several e-Lybra®s needs to be collected on one computer.

How does it work...? **there is no validation of any claim**

The unique interface between this bio-resonance system and the client allows direct communication with the autonomous consciousness of the client connected to it. The 'bridge' is the key to the interaction between the analysis of the client's bio-field and its restoration to balance. Never before in the history of mankind has technology evolved to such a degree that now makes it possible for e-Lybra® technology to work at this level of consciousness and help make a change to a bio-chemical organism such as a human.

A typical balancing session protocol consists of 10 minutes initialisation/balancing program followed by 5 minutes full body scan. The body scan produces a profile automatically selected/tested from 222 categories. The profile is then used in the main analysis and balancing session which is usually run for 45 minutes. During this process the e-Lybra® produces bio-resonance patterns which are delivered to the client and also stored on the bio-resonance capsule which the client takes away and wears on their body. At the end of the analysis and balancing session an 'after' body status is recorded showing changes that have occurred in the client's bio-field which takes a further 5 minutes. Lastly, a grounding formula is run for 5 minutes to make sure the client is fully awake before completing the session. Variations to the protocol include adding extra formulae for specialised processes such as addiction therapy, weight balancing, to name but a few. The use of the e-Lybra® is only limited by the creativity of the Practitioner.

Practitioner's may also sample and create their own bio-resonance patterns using the built in sampling function. In this way your favourite products, remedies and test sets can be stored on the e-Lybra® for inclusion in any formula and to test against the client connected to the system and to produce balancing remedies to take away.

How does it work from a distance.. **well it does not** .?

Part of the design of e-Lybra® incorporates a bridge to consciousness of the selected client allowing it to perform powerful energy balancing - at a distance i.e. client not present! Although this sounds a bit far fetched to the newcomer of energy medicine it is in fact standard practice. To make this 'bridge' as strong as possible the e-Lybra® provides a function to sample the hair or bio sample of the client which is resonated electronically and creates the signature of the hair sample. This creates an electromagnetic field and a unique energetic connection to the client. This 'connection' is then sampled and stored on the e-Lybra® system. When the client is being balanced at a distance the stored 'connection' is used in the circuitry to receive information from the client as well as to send patterns across this quantum bridge. Experiencing this type of balancing just once is enough for most Practitioners to open the way forward to using this exciting feature when and wherever possible. Ideally used for clients in hospital and as a general support 2-3 times a week.

Practitioner's of e-Lybra® say that it adds extra effectiveness to their balancing sessions because clients can be helped a little each day through their difficult challenges as a regular part of the support offered by the Practitioner. Many clients can be scheduled one after another, each with their own needs when e-Lybra® is used at a distance. It is not uncommon to give each distance client 15-25 minutes each night when the e-Lybra® is not being used for normal day sessions.

What is included in the standard e-Lybra® kit ...?

e-Lybra 9 base unit

e-Lybra 9 “getting started” instruction manual

Comprehensive e-Lybra training videos supplied on a DVD to be used in a PC

e-Lybra 9.500 software install CD for Windows XP, Vista and Windows 7

3 years free software and hardware support (Requires on-line registration / registration documents supplied with system kit)

2 Days Basic Training – Normally provided face to face, but Skype or online training may be possible

2 Days Refresher Training (this is only available in the UK)

3 x e-Pendants and 3 x e-Pebbles

1 x Quantum Star

1 x Crystal Spiral

1 x Water Enhancer

1 x Silent Healing CD

1 x Computer Clear 9 CD

1 x WDS product information DVD and 1 x e-Lybra practitioner talks DVD

1 X Standard USB 2.0 cable : Type A to type B: 1.8Mtr

1 x 9-Volt power supply with adaptors for UK, EU, USA, Japan, and AU

1 x e-Lybra connection kit (a pair wrist straps and connection cables, a pair Heel and Ankle straps and connection cables)

This IS fraudulent Energy Medicine at its worst
