## Real Homeopat

en|vision uses an advanced information scan that is able to access information on the state of your overall well being by finding the underlying causes and best solutions for your health conditions. Once the client information is keyed in, the system accesses a huge database of healing modalities such as acupuncture, homeopathy, herbal remedies, etc. The system is based on quantum physics principles that the physical world is made of information, with energy and matter as incidentals. Einstein proved to scientists that energy and matter are dual expressions of the same universal substance. This helps to strengthen the connection of the body, mind and spirit as a whole by balancing the hologram.

Holographic balancing works at the physical and etheric levels and helps to re-balance the mental and higher energetic levels. Thus, it's possible to perform holographic balancing in the presence of the client or at great distances. When the solution is identified, the remedy information can be sent to the client as a broadcast or can be imprinted as a remedy.

Holographic data analysis is a revolutionary and very advanced method of accessing optimal health in-sights in order to achieve balance and harmony for people.
