No science, no studies, no registration, no validation

“During our classes GDV CAMERA is going to be at disposal of everybody. It has been created after 20 years of study from Prof Konstantin Korotkov and certified as a medical instrument in Russia and Belarus.

On the occasion of our training, we introduce special offer for using this tecnology and analysing participant’s energy field, biological health status and real condition after different tests

The GDV equipment allows:

1. to diagnosis the physics and psychological state,

GDV Bioelectrography provides early diagnosis of a lot of illnesses. GDV has the potential to serve as an extremely powerful and comprehensive medical diagnostics tool, capable of showing malfunctions of the body before any physical symptoms become evident.

2. to monitor responses to treatment,

GDV enables us to evaluate and quantify the response of any person to any treatment. A typical procedure involves recording a person’s initial state and the state after the treatment. One will be able to see the changes of the body system on a computer screen.

3. to quantitative evaluate of individual’s physiological stress level,

4. to estimate treatment effectiveness,

By recording the human state at some time intervals after a treatment has been applied (typically minutes or hours), it is possible to estimate if the treatment has a temporary or a systematic effect on the human state.

5. to compare therapies,

GDV method of human state assessment enables comparing various therapies and estimating the best therapy for any given person/condition.

6. to test new treatments,

Since electrophotonic GDV glow seems to reflect the state of human consciousness, rather than just the body, it is possible to estimate the effect of a new treatment BEFORE actually applying it.

7. to study person’s individual reaction to the influence of CAM (*Complementary/Alternative Medicine*),

(informational, energy, physical medicine): oriental techniques, light, sound, air-ions, magnetic field, etc. You can also check the effects of subtle influences such as homeopathy, flower essences, essential oils and wave therapy, including allergic reactions, on individual’s energy.

8. to see the impact of spiritual sessions,

such as meditation, Reiki, pray, Yoga, emotional release, and many others on your physical wellbeing.

Two special Offers for you:

a) One test with GDV Camera and print of result to a price of 100 euro

b) Pack of 2 test during the days of a training, when they want, at a special price of 130 euro

BOOK NOW your test to have the priority and avoid lines during the course

1 TEST – 100 EURO

2 TEST – 130 EURO
