

WHPRS Rating= 5, this device is registered and safety tested as a simple TENS device, no real studies were found, no validation of organ therapy

What is SCENAR ?	About SCENAR Academy	SCENAR Education	Books and Devices	Our Achievements	Our Support	Photo Gallery	SCENAR. Magazine For You
------------------	----------------------	------------------	-------------------	------------------	-------------	---------------	--------------------------

Dear Visitor !

Welcome to Scenar Academy of the Scenar founder, the author of multiple Scenar therapy techniques, one of the authors of all Scenar, Rista devices and healing blanket OLM-1 - Professor Alexander Revenko and Dr. Galina Subbotina.

Hundreds of thousands of therapists use Scenar, Rista devices and Blankets. Plenty of information about history of the device development, the way it works and affects patient's body, techniques you may find on multiple Web-sites (Read Section "What is Scenar?").

of Scenar therapy philosophy, physics of the device, its mechanics and Scenar methodology. Probably no device will be made "intelligent" enough to treat, choose and adopt settings, zones and intensity of work (as you can read in some commercials). Every man and patient is UNIQUE. On our seminars we teach general treatment rules, understanding of healing philosophy, rules of zones and settings choice regardless of the diagnosis Read Section "Scenar Academy".

2. Support our users. We made a special section "Support", where we place study and practice lectures, where you can find how to use Scenar and blanket. You may also find our FAQ section useful.

3. New strategy of marketing. We don't just sell a device (you can by a device in a pharmacy, Internet shops, and official distributors). We offer you new kind of relationship between a seller and a buyer. Handing over a device, we are teaching you how to use it (Beginners seminar, Semi-volume textbook on Scenar therapy, training seminar

The Scenar sends in a large unnatural current without measuring response, No validation of organ measures or remedy testing was evident. Salesmen made wild unverified and unsubstantiated claims not found in any ISSN journals.

News

First SCENAR history from the inventors

I'd like to share with all of you SCENAR history from the inventors, first real history. You can find a lot of legends in Internet, it is very good, but I think the real history from the people who created and developed SCENAR is the best.

Also my aim was to name all these people!

Now in German, next will be English! Thank you dear Inge Horcher, it is excellent work!

Please copy here the book >>
